

EquiForce Complete

Vitamin/mineral supplement with organic trace elements, seaweed, and natural vit-E.

Concentrated multivitamin- and mineral supplement with a very high bioavailability. Based on alfalfa, seaweed, natural spices-, and flavours (peppermint oil and fenugreek). Free of molass and contains solely coated vitamins and organic (chelated) trace elements for the highest nutritional value and a prolonged shelf life. With natural vitamin E, which is the only form of the E-vitamin (of a total of 8) that is 100 % bioavailable and hence 40 % more effective than any of the other forms. Together with organic selenium (Sel-Plex®) the natural vitamin E is a very powerful antioxidant that strengthens the immune system and fertility. North Atlantic Seaweed (Ascophyllum nodosum) provides a rich and natural extra source of organic trace elements, especially iodine. EquiForce Complete is recommended to balance a cereal ration with all the necessary vitamins and minerals. Also very suited for horses who only need a vitamin- and mineral supplement or grazing horses as well as an extra supplement when feeding with supplementary feed in smaller amounts (below the recommendations) and/or roughage of low nutritional value.

Composition: chalk, monocalcium phosphate, magnesium phosphate, alfalfa, sodium chloride (salt), ground wheat, beet pulp, rosemary, seaweed (Ascophyllum nodosum), fenugreek, rapeseed oil.

Analysis: crude protein: 2,9 %, crude fibre: 3,1 %, crude fat: 3,3 %, crude ash: 66,4 %, sodium(Na): 3,7 %, calcium(Ca): 12,0 %, phosphorous(P): 3,0 %, magnesium(Mg): 3,0 %, potassium(K): 1,7 %, iodine(I): 10 ppm.

Specification	per kg
A vitamin	300.000 IU
B1 vitamin	100 mg
B2 vitamin	80 mg
B6 vitamin	35 mg
B12 vitamin	250 mcg
C vitamin	1.000 mg
D3 vitamin	20.000 IU
E vitamin	5.000 IU
K3 vitamin	60 mg
Biotin	5.500 mcg
Choline chloride	1.500 mg
Niacinamide	250 mg
Calcium-D-Pantothenate	100 mg
Folic acid	40 mg
Zinc(Zn)*	3.000 mg
Iron(Fe)*	2.500 mg
Manganese(Mn)*	1.600 mg
Copper(Cu)*	1.000 mg
Selenium(Se)*	15 mg
Iodine*	10 mg
Cobalt*	10 mg

*) 100 % organic form

Daily doses	Horse	Pony	Small Pony
Maintenance	100 g	70 g	35 g
Light/medium work	150 g	100 g	50 g
Hard work	200 g	130 g	65 g
Foals & youngstock	150 g	100 g	50 g
Gestating mares(from 8th mth)	200 g	130 g	65 g
Lactating mares	250 g	160 g	80 g

The listed doses are for grazing horses or horses that are solely fed with cereals and roughage. When used as an extra supplement, eg. when feeding supplementary feed in smaller amounts (below recommendations) and/or roughage of low nutritional value, the doses can be reduced with 50 %.

Feed additives per kg: A-Vit.(3a672a): 300.000 IU, B1-vit.(3a821):100 mg, B2-vit.: 80 mg, B6-vit.(3a831): 35 mg, B12-vit.: 250 mcg, C-vit.(3a300): 1.000 mg, D3-vit.(E671): 20.000 IU, E-vit.(3a700, RRR-alpha tocopherol): 5.000 IU, K3-vit.(3a711): 60 mg, biotin(3a880): 5.500 mcg, choline chloride(3a890): 1.500 mg, niacinamide (3a315): 250 mg, calcium-D-pantothenate(3a841): 100 mg, folic acid(3a316): 40 mg, zinc chelate of glycine hydrate(3bE3): 11.500 mg, iron chelate of glycine hydrate(E1): 8.100 mg, manganese chelate of glycine hydrate(3bE5): 7.200 mg, selenium yeast(3b8.11): 6.500 mg, copper chelate of glycine hydrate(3bE4): 4.100 mg, cobalt acetate, tetrahydrate(3b301): 50 mg, peppermint oil(CAS-no: 8006-90-4): 0,4 %.

Feed category: mineral supplementary feed for horses.

Storage: in a closed jar/bag, away from heat and sunlight.

Please note: Contains no molass, artificial colors, flavours, nor preservation. Contains no substances prohibited by the FEI and The British Jockey Club.

Package sizes:

9 kg jar (with scoop)

20 kg bag
